Rapid Hiring and Growth for Jacksonville Business: Holmes Stamp & Sign

Company adds 4 employees in 3 weeks; plans for 2 more

Jacksonville, Florida -- Jacksonville-based Holmes Stamp and Sign (HSC) is reporting rapid growth from online sales of their custom name tags, desk plates, signs, banners, stamps and other personalized office products and gifts. As a result, they are adding jobs at an unprecedented pace in company history. The new hire starting on May 23rd marks the Company's fifth full time hire in less than a month. The company is currently hiring for other positions.

Jon Hosier was hired to the Internet Marketing Team as Email Marketing Specialist mid-April. Hosier joins the team with nine years of online marketing experience ranging in SEO copying writing and SEO management, to marketing management, and most previously was the Content & Marketing Manager for Tampa-based, ReliaQuest. Jon brings a level of detail and analysis to Holmes Stamp & Sign and will work closely with the marketing department messaging through email communication.

Swan Moon joins HSC's Information Technology department to support the growing needs of website development and programming. She is a University of Florida student pursuing her B.A. in Economics. A National Scholar Honors Society member, Moon also has prior work experience in social media marketing and account management.

Libby O'Regan joins HSC as the Vice President of Brand Strategy and Creative. Her previous employment with Bluffton-based, PSA Essentials and sales and marketing of personalized address stamps and embossers lends itself to a similar capacity at HSC, particularly with the high volume of rubber stamp business Holmes Stamp and Sign has been producing since 1954. She is also heading up the Product Development Team, who will be designing and creating new custom products for business and personal use. The position for O'Regan and the team for HSC will bring loyal Jacksonville-based customers and online shoppers a wider array of high quality custom products and options. New products are added to the HSC websites daily.

Liz Wyatt started May 10th as a graphic designer in the Internet Marketing department to support Product Development, website design and general marketing needs. She was previously a Digital Media Designer and Data Analyst for Street Holes, LLC and before that, an assistant retail buyer. Her in-store retail experience lends itself to online sales, merchandising and marketing.

Brandon Anders joined HSC in June in the Information Technology Department.

Michael Salussolia joined the Internet Marketing and Information Technology team full-time as of July 26, 2016 to facilitate product distribution across the company's websites. He has a Bachelor of Business Administration from The University of North Florida.

For more information about new hires or growth, please contact Libby O'Regan or Bryan Croft, CEO, at Holmes Stamp & Sign.
